

Harness the power of cloud communications

Cloud-Based Telecom (Hosted VoIP PBX)

THE LAST BUSINESS COMMUNICATIONS SOLUTION YOU'LL EVER NEED

Picking a business communications system can be a challenge. As soon as it's installed, your organization's outgrown it or new, must-have capabilities come to market. It's hard to keep up. We deliver a carrier-class communications solution "as a service" from the cloud. There's no system to install, so you can add seats or functionality on-demand.

FLEXIBLE & FUTURE-PROOF

COMPARED TO ON-PREMISES PHONE SYSTEMS

- + Focus on Your Business**
We take care of the details – phones, installation, training and ongoing service – so you can focus on your business.
- + Right-size Your Costs**
Buy only what you need on a flat rate per phone, per month. As your business requirements change you can add or remove services as needed.
- + Enjoy Enterprise-Class Features**
Get powerful features, such as direct telephone numbers for all users, voicemail delivery via email with transcription, call recording, free domestic long distance calling, and much more.
- + Never Miss a Call**
Even if there's a power outage or natural disaster at your office, you can automatically reroute calls to another location or phone number, so you'll never miss a call.
- + Unprecedented Call Control**
Web-based CommPortal gives users and administrators the power to manage call routing and other preferences.
- + Enable Remote Employees**
Supporting a distributed workforce is easy. You can put a phone anywhere with an Internet connection and it will integrate seamlessly with our cloud-based platform.
- + Mobilize Your Business**
With our mobility package, your employees can use our Hosted PBX features from their smartphones, tablets, laptops or other mobile devices.
- + Unify Communications**
Integrate voice, video, presence, instant messaging and SMS into a single platform with MaX UC for desktop or mobile devices.

PHONES & FEATURES TO FIT YOUR NEEDS

Our hosted VoIP communications solution has the flexibility to support all types of work and workers. Choose from full-featured IP desktop phones, wireless handsets and conferencing systems. If desired, pair with our MaX UC softphone for desktop or mobile devices.
